

# Institute flow

## 1. INSTITUTE AUTHENTICATION FLOW

### 1.1 Branded Login Page

Elements:

- Institute Logo
- Platform name (custom)
- Theme color (institute branding)

Fields:

- Email / Username
- Password
- OTP verification (optional)
- Forgot Password

Security:

- Login IP tracking
- Device tracking
- Session timeout

---

## 2. INSTITUTE DASHBOARD

### 2.1 KPI Overview Cards

Cards:

- Total Students
- Active Courses
- Tutors Count
- Live Classes Today
- Monthly Revenue
- AI Usage (tokens)
- Attendance %

---

### 2.2 Visual Analytics

Charts:

- 1. Enrollment Trend (monthly)
  - 2. Student Progress Graph
  - 3. Live Class Participation
  - 4. Course Completion Rate
- 

## 2.3 Quick Action Panel

Buttons:

- Add Student
  - Add Tutor
  - Schedule Class
  - Create Course
  - Upload Content
- 

## 2.4 Alerts & Notifications

Examples:

- Upcoming classes
  - Students with low progress
  - AI token limit warning
  - Payment pending alerts
- 

# 3. STUDENT MANAGEMENT SYSTEM

---

## 3.1 Student Listing Page

Table Columns:

- Student Name
- Email
- Batch
- Course
- Progress %
- AI Usage
- Last Login
- Status

Actions:

- View profile

- Assign batch
- Suspend student
- Reset password

Filters:

- Course
  - Batch
  - Progress level
  - Active / inactive
- 

## 3.2 Add Student Flow

### Method 1 — Manual Add

Step 1: Basic Info

- Name
- Email
- Phone

Step 2: Assign Course

Step 3: Assign Batch

Step 4: Set Learning Mode

- Online Mode
- Lab Mode (IP restricted)

Step 5: Create login credentials

---

### Method 2 — Bulk Upload

Upload CSV:

Fields:

- Name
- Email
- Batch
- Course

System:

- validates
  - auto creates accounts
- 

## 3.3 Student Profile Page

Tabs:

## Profile

- Name
- Course
- Batch
- Login history

## Learning Progress

LSRW breakdown:

Listening

Speaking

Reading

Writing

## Assessments

- Quiz results
- Attempts
- Scores

## AI Practice

- AI tutor sessions
- Speaking practice results
- AI feedback

## Attendance

- Live class attendance
- Participation %

## Payment History

(if institute charges students)

# 4. BATCH MANAGEMENT

## 4.1 Batch Creation

Fields:

- Batch name
- Course
- Start date
- End date

- Tutor assigned
- 

## 4.2 Batch Dashboard

Displays:

- Students in batch
  - Upcoming classes
  - Attendance %
  - Progress summary
- 

## 5. TUTOR / INSTRUCTOR MANAGEMENT

---

### 5.1 Tutor List

Columns:

- Name
- Assigned Courses
- Classes Conducted
- Student Rating
- Status

Actions:

- View
  - Edit
  - Assign course
  - Disable account
- 

### 5.2 Add Tutor Flow

Step 1: Basic info

- Name
- Email
- Phone

Step 2: Assign Courses

Step 3: Assign Batches

Step 4: Access permissions

---

### 5.3 Tutor Profile

Tabs:

## Profile

Basic details

## Classes

- Scheduled classes
- Completed classes

## Performance

Metrics:

- Attendance
- Student feedback
- Class completion

## Evaluations

Assignments graded by tutor

# 6. COURSE MANAGEMENT

## 6.1 Course Library

Types:

1. Platform Courses  
(master content)
2. Institute Courses  
(custom content)

## 6.2 Create Custom Course Flow

Step 1: Course Info

- Course name
- Description
- Duration

Step 2: Add Modules

Listening  
Speaking  
Reading  
Writing

Step 3: Add Lessons

Step 4: Upload Content

- Video

- Audio
- Text
- Exercises

Step 5: Add Assessments

Step 6: Publish

---

## 7. LIVE CLASS MANAGEMENT

---

### 7.1 Schedule Live Class

Flow:

Select Course

→ Select Batch

→ Select Tutor

→ Select Date & Time

→ Auto Generate Meet Link

→ Send Notifications

---

### 7.2 Class Calendar

Views:

- Daily
- Weekly
- Monthly

Shows:

- upcoming classes
  - tutor schedule
  - batch classes
- 

### 7.3 Class Details Page

Displays:

- tutor
- students
- meeting link
- lesson topic

Options:

- mark attendance
- upload recording

- add notes
- 

## 8. AI PRACTICE MONITORING

---

### 8.1 AI Usage Dashboard

Metrics:

- Total sessions
  - Speaking practice count
  - AI tokens used
- 

### 8.2 Student AI Reports

Shows:

- pronunciation score
  - fluency score
  - improvement suggestions
- 

## 9. LAB MODE / IP RESTRICTED LEARNING

This is for **computer lab learning environments**.

---

### 9.1 IP Whitelist Settings

Institute admin can:

Add allowed IP:

Example:

192.168.0.1

192.168.0.2

---

### 9.2 Lab Mode Toggle

Modes:

1. Open Learning

Login from anywhere

2. Lab Mode

Students must login from institute systems only.

---

### 9.3 Security Logs

Admin can see:

- login attempts
- blocked IPs

- violation alerts
- 

# 10. REVENUE MANAGEMENT

Some institutes charge their students.

---

## 10.1 Payment Dashboard

Shows:

- Total revenue
  - Pending payments
  - Student subscriptions
- 

## 10.2 Payment History

Columns:

- Student
  - Plan
  - Amount
  - Date
  - Status
- 

# 11. REPORTS & ANALYTICS

This is **decision dashboard** for institutes.

---

## 11.1 Student Learning Reports

Shows:

- LSRW performance
  - improvement trends
- 

## 11.2 Tutor Reports

Metrics:

- classes conducted
  - attendance
  - ratings
- 

## 11.3 Attendance Reports

Batch wise attendance

---

## 11.4 AI Usage Reports

Token consumption per student

---

## 12. COMMUNICATION CENTER

Institute can notify students.

---

### 12.1 Announcements

Examples:

- class updates
  - exam reminders
- 

### 12.2 Messaging

Send to:

- batch
  - individual student
  - tutor
- 

## 13. SETTINGS

Institute configuration.

---

### 13.1 Branding Settings

Upload:

- logo
  - theme colors
- 

### 13.2 Notification Settings

- email
  - sms
  - whatsapp
- 

### 13.3 Security

- password policy
  - IP restrictions
  - login monitoring
-
